WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

(PCT Rule 43bis.1)

Applicant's or agent's file reference <b>M34050003P00</b>		Date of mailing (day/month/year) <b>24 MAR 2005</b>
International application No. <b>PCT/US04/23704</b>		International filing date (day/month/year) <b>23 July 2004 (23.07.2004)</b>
International Patent Classification (IPC) or both national classification and IPC <b>IPC(7): H01Q 21/00, 11/12 and US Cl.: 343/741, 742, 866, 867, 855, 853, 872</b>		Priority date (day/month/year) <b>25 July 2003 (25.07.2003)</b>
Applicant <b>MEADWESTVACO CORPORATION</b>		

1. This opinion contains indications relating to the following items:

- |                                     |              |  |
|-------------------------------------|--------------|--|
| <input checked="" type="checkbox"/> | Box No. I    | Basis of the opinion   |
| <input type="checkbox"/>            | Box No. II   | Priority   |
| <input type="checkbox"/>            | Box No. III  | Non-establishment of opinion with regard to novelty, inventive step and industrial applicability   |
| <input type="checkbox"/>            | Box No. IV   | Lack of unity of invention   |
| <input checked="" type="checkbox"/> | Box No. V    | Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement |
| <input type="checkbox"/>            | Box No. VI   | Certain documents cited  |
| <input type="checkbox"/>            | Box No. VII  | Certain defects in the international application   |
| <input type="checkbox"/>            | Box No. VIII | Certain observations on the international application  |

## 2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.

PCT/US04/23704

**Box No. I Basis of this opinion**

1. With regard to the **language**, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ This opinion has been established on the basis of a translation from the original language into the following language \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

☐ a sequence listing

☐ table(s) related to the sequence listing

b. format of material

☐ in written format

☐ in computer readable form

c. time of filing/furnishing

☐ contained in international application as filed.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.  
PCT/US04/23704

**Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

**1. Statement**

Novelty (N)	Claims <u>3-11, 16-24, 27</u>	YES
	Claims <u>1-2, 12-15, 25-26</u>	NO
Inventive step (IS)	Claims <u>3-11, 16-24, 27</u>	YES
	Claims <u>1-2, 12-15, 25-26</u>	NO
Industrial applicability (IA)	Claims <u>1-27</u>	YES
	Claims <u>NONE</u>	NO

**2. Citations and explanations:**

Claims 1-2, 12-15 and 25-26 lack novelty under PCT Article 33(2) as being anticipated by Hatano et al. (US 6,069,564). Hatano discloses RFID system (Abstract) used to read RFID tags having an antenna configuration (Figs. 3-7B) comprising a first reader antenna (44 in Fig. 4A, or 62a in Fig. 5B) oriented in a first plane, and a second reader antenna (46 in Fig. 4A, or 62d in Fig. 5B) oriented in a second plane wherein the first and the second reader antenna are respectively oriented to reduce dead zones for the reading of RFID tags. Hatano further discloses a third reader antenna (62e in Fig. 5B) in a third plane, wherein the first, second and the third planes are oriented in orthogonal planes relative to one another so as to reduce to zero the number of dead zones for the reading of RFID tags.

Claim 3-11, 16-24 and 27 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not fairly teach or suggest the first antenna forming encircling a volume in the first plane and the second antenna being wrapped around two opposing sides of the volume, wherein the opposing sides are parallel to each other and orthogonal to the first plane.

Claim 1-27 meet the criteria set out in PCT Article 33(4), and thus meet industrial applicability because the subject matter claimed can be made or used in industry.
